

### **We Provide the Following Services:**

#### **Day-One Billing and Follow Up Services**

A dedicated account executive is responsible for day-to-day supervision of all types of billing and follow-up services such as Medicare, Medicaid, BC/BS, HMOs, Worker's Comp. and No-Fault accident billing. We specialize in providing these services in an efficient, patient-friendly manner for various specialties across different types of providers.

#### **Aged Receivable Follow Up Services**

We have expertise in handling accounts that are referred to us at 30-90 days from the date of service.

#### **Managed Care/Workers' Compensation Appeals**

Through our in-house law office, we specialize in a variety of unique and aggressive appeal techniques designed to overturn denials and obtain interest on inappropriate claim denials. In non-participating/out-of-network situations, we offer cutting edge solutions geared to **obtain upwards of 80% to 100% of charges** for our clients.

#### **Legal Collection Services**

We offers collection services to handle medical "self-pay accounts" i.e. those unpaid medical bills that are the obligation of the patient. Our collection services are compliant with the Fair Debt Collection Practices Act (FDCPA).

#### **Compliance/Managed Care Contract Negotiations/Practice Management Services**

Through our in-house law office, we assist providers with compliance issues as well as negotiate favorable managed care contracts. In addition, we offer Practice Management and Coding services.

#### **Credentialing Services**

As part of the billing process, Nationwide confirms the credentialing needs of its clients with all government and commercial payors and assists with all applications.

### **End-to-End Revenue Cycle Management**

Nationwide Health Solutions is a leading healthcare revenue cycle company providing a full range of outsourcing solutions for billing and receivables management needs, specializing in physician practices, hospital systems, medical centers, and free standing clinics.

### **Why Nationwide?**

In the healthcare industry, most medical billing companies exclusively offer Day One billing and Aged Receivable follow up services. Very few, if any, offer legal services such as managed care appeals and legal collections. Accordingly, health care providers are forced to retain the services of multiple companies to address all aspects of its revenue cycle. Unlike these companies however, Nationwide is a full-service billing organization to the healthcare community because it has the ability to perform all services related to the revenue cycle. In fact, all correspondences with insurance companies are sent on legal letterhead and legal services (appeals, litigation, collections, etc.) are included with billing services.

### **We are Physician Advocates**

Nationwide is an advocate of our client healthcare providers first and foremost and billers and collectors second. As physician advocates, we stay current on all healthcare legislation (existing and pending) and engage in "grassroots" lobbying efforts on behalf of our clients. As a result, we develop a genuine partnership with our clients extending beyond the traditional billing and collection services offered by other companies.

### **Increase Revenue**

Nationwide aims to advocate for the rights of our clients to ensure that all healthcare claims are paid promptly and fairly based upon reasonable reimbursement rates through effective revenue cycle management while providing our clients with the necessary tools to maintain a profitable practice.

### **Our Founder**

Nationwide Health Solutions was started by Neil Levinbook, Esq. in 2009. Before starting Nationwide, Mr. Levinbook was previously the Chief Operating Officer/Compliance Officer at one of the largest medical billing companies on the East Coast. In addition, he previously owned and operated his own law firm advising health care providers specializing in the area of out-of-network reimbursements and HIPAA compliance. He is a licensed attorney in both New York and New Jersey is an active member of the Health Financial Management Association and is on the organization committee for the Health & Hospital Law Committee of the Suffolk County Bar Association.

### **Our Staff**

Nationwide focuses its billing and follow-up efforts to maximize healthcare reimbursements in compliance with all applicable legal requirements while maintaining the highest level of professionalism and ethics. We deliver unparalleled service to our clientele by employing highly competent, experienced professionals and utilizing the latest technology available in the industry.
